SAVANT ADC OVERVIEW

savant SOFTWARE
Delivering Successful Experiences.

Savant Software and SAP B1 have partnered to provide the market with best in class Hardware and Scalable Inventory Control/WMS Systems. The SAP B1 team recognizes that many companies need to Walk, Jog then Run as it relates to their technology investment. Partnering with Savant Software for ADC (Automatic Data Collection) and WMS (Warehouse Mgmt. Software) enables the customer to grow into a solution stack over time.

Savant ADC comes standard, out of the box, with the following Features:

- Receiving
- License Plate Generation
- Inventory Control
- Cycle Counting
- Replenishments
- Adjustments
- Order Fulfillment (RF Picking)
- Ship Confirmation (not shipping manifest)

Additional Cost-effective Add-on Modules and Features:

- RMA
- Shipping Manifest
- Serialization
- Lot Control
- WIP
- Code Date

Savant ADC Bundle Costs are listed below:

- 100.00 per user/month (50% margin to reseller 2016)
- RF Devices start at 795.00 (one-time expense)
- Professional Services Avg. 40-60 hours for Base ADC

Avg. 1st-year Investment for a 3 user Savant ADC System

- 3,600.00 SaaS (300.00 X 12)
- 1,590.00 2 RF Device (Avg Costs)
- 7,400.00 40 hours Professional Services (Avg Costs)

12,590.00 Total!

While this investment is nominal the true savings is in our ability to move from Savant ADC to WMS just by changing a License Key!
